Permit to Engage in Surface Mining

LAND RECLAMATION COMMISSION

ISSUES TO

PARKS READY MIX CEMENT, INC.

Pursuant to "The Land Reclamation Act," RSMo. 2001, and on conformity with the statements in the application, a permit is hereby granted to engage in surface mining of sand & gravel in the state of Missouri. The extent of the proposed mining operation(s) will be on ten acres, more or less. The locations of the operation(s) under this permit is/are as follows: Renewal

See Attached List

This permit may be suspended or revoked upon violation of any or all of the conditions set forth in "The Land Reclamation Act," RSMo. 2001, or in such rules and regulations as are promulgated pursuant thereto by the Land Reclamation Commission.

IN WITNESS WHEREOF I have hereunto set my hand this 3rd day of December, 2004

DIRECTOR OF STAFF

FEES: COMPLETE SECTION I OR SECTION II

SECTION I. Fees: Open pit operators and those mining more than 5,000 tons of sand and/or gravel:

1. To compute the site fee complete the information below:

SITE NAME OR NUMBER (add a separate sheet for additional sites)	Mark each month that the site will be operated during the permit year	For sites operated less than six months per permit year pay \$150 For sites operated six months or more per permit year pay \$300
1. Site #1 - Site # 0559	Jan. Feb. Mar. Apr. May. Jun. Jul. Aug. Sep. Oct. Nov. Dec	\$
2. Site #2 - Site # 0558	Jan. Feb. Mar. Apr. May. Jun. Jul. Aug. Sep. Oct. Nov. Dec	\$
3. Site #3 - Site # 0557	Jan. Feb. Mar. Apr. May. Jun. Jul. Aug. Sep. Oct. Nov. Dec	\$
4. Site #4 - Site # 0561	Jan. Feb. Mar. Apr. May. Jun. Jul. Aug. Sep. Oct. Nov. Dec	\$
5. Site #5 - Site # 0562	Jan. Feb. Mar. Apr. May. Jun. Jul. Aug. Sep. Oct. Nov. Dec	\$
6. Site #6 - Site # 0560	Jan. Feb. Mar. Apr. May. Jun. Jul. Aug. Sep. Oct. Nov. Dec	\$
7. Site #7 - Site # 1858	Jan. Feb. Mar. Apr. May. Jun. Jul. Aug. Sep. Oct. Nov. Dec	\$
8. Site #8 - Site # 1920	Jan. Feb. Mar. Apr. May. Jun. Jul. Aug. Sep. Oct. Nov. Dec	\$
9. Site #9 - Site # 1921	Jan. Feb. Mar. Apr. May. Jun. Jul. Aug. Sep. Oct. Nov. Dec	\$
10. Site #10 - Site # 1922	Jan. Feb. Mar. Apr. May. Jun. Jul. Aug. Sep. Oct. Nov. Dec	\$
TOTAL SITE FEE		\$

2. Acreage Fee \$5 X _____ number of acres bonded\$

3. Annual Permit Fee\$ 500

4. Total Fee (Add totals from 1, 2 and 3)\$

NOTE: If Total Fee exceeds \$2,500.00 then pay only\$ 2,500

SECTION II. FEES: Sand or gravel operators mining less than 5,000 tons per year:

1. Annual Permit Fee\$ 300

SAND AND GRAVEL EXCAVATION PLAN

(required by 10 CSR 40-10.020(2)(D)4.)

MISSOURI LAND RECLAMATION COMMISSION JEFFERSON CITY, MO 65102-0176

P.O. BOX 176

PERMIT NO. 0567	SITE NO +/- OR NAME SITES 1-10
<p>Commercial operations that conduct sand and/or gravel removal within the stream banks must comply with the following itemized requirements. The following itemized requirements are designed to protect water quality while allowing for the excavation of sand and gravel from riparian environments. Upon request of the applicant, the program may establish site specific variances to address conditions that may occur at individual locations. To file a request for a variance on one or more of the requirements itemized below, mark the box "YES" that is associated with the variance and then complete a Request For Variance on Page Three of this form. Otherwise, there shall be NO variance from the itemized requirement.</p>	
<p>1. Excavation of sand or gravel deposits shall be limited to deposits in unconsolidated areas containing primarily smaller material (at least eighty-five percent (85%) of the material is less than three inches (3") in diameter) that is loosely packed and contains no woody perennial vegetation greater than one and one-half inches (1 1/2") in diameter, measured at breast height, four and one-half feet (4.5').</p> <p>Variance Requested: <input type="checkbox"/> YES</p>	
<p>2. An undisturbed buffer of 10-foot width shall be left between the excavation area and the water's edge of the flowing stream at the time of excavation. A buffer zone of adequate width to protect bank integrity should be left between the excavation area and the base of the high bank.</p> <p>Variance Requested: <input type="checkbox"/> YES</p>	
<p>3. An undisturbed buffer of 25 feet wide shall be maintained in an undisturbed condition landward of the high bank for the length of the gravel removal site. Disturbed areas in this riparian zone shall be limited to maintained access road(s) for ingress and egress only. No clearing within this riparian area is authorized in association with work authorized by this permit.</p> <p>NO VARIANCE AVAILABLE</p>	
<p>4. Sand or gravel shall not be excavated below water elevation at the time of removal, except:</p> <p style="margin-left: 20px;">a. If the stream is dry at the time of excavation, excavation shall not occur deeper than the lowest undisturbed elevation of the stream bottom adjacent to the site. Upon request of the applicant, the excavation depth restrictions may be modified if the staff director determines that a variance would not significantly impact the stream resource.</p> <p style="margin-left: 20px;">b. For wet stream reaches, the excavation depth restriction may be modified if it is determined by the staff director that a variance would not significantly impact the stream resource based on the presence of bedrock to prevent head cutting, excessive bedload, gravel rich areas or any other appropriate reason.</p> <p>Variance Requested: <input type="checkbox"/> YES</p>	
<p>5. Stream channels shall not be relocated, straightened, cut-off, shortened, widened, or otherwise modified. A stream channel is defined as that area between the high banks of the creek where water is flowing, or in the case of a dry stream, where water would flow after a rain event.</p> <p>NO VARIANCE AVAILABLE</p>	
<p>6. Within thirty (30) days of the removal of excavation equipment from the site, streambank areas disturbed by the removal operation (access points) shall be revegetated or otherwise protected from erosion. For long-term operations (longer than thirty (30) days) or for sites that will be periodically revisited as gravel is deposited, access points shall be appropriately constructed and maintained such that stream banks and access roads are designed and constructed to minimize erosion.</p> <p>Variance Requested: <input type="checkbox"/> YES</p>	
<p>7. Any aggregate, fines, or oversized material removed from the site shall be placed beyond the high bank, on a non-wetland site that has been approved by the landowner. No material, including oversized material, that results from excavation activity may be stockpiled or otherwise placed into flowing water or placed against streambanks as bank stabilization unless specifically authorized by a state or federal permit.</p> <p>Variance Requested: <input type="checkbox"/> YES</p>	
<p>8. All sand or gravel washing, gravel crushing, and gravel sorting shall be conducted beyond the high bank, in a non-wetland area and away from areas that frequently flood, such that gravel, silt, and wash water that is warm, stagnant, or contains silty material cannot enter the stream or any wetland.</p> <p>NO VARIANCE AVAILABLE</p>	
<p>9. Vehicles and other equipment shall be limited to removal sites and existing crossings. Water shall be crossed as perpendicular to the direction of the stream flow as possible.</p> <p>Variance Requested: <input type="checkbox"/> YES</p>	
<p>10. Fuel, oil and other wastes and equipment containing such wastes shall not be stored or released at any location between the high banks or in a manner that would enter the stream channel. Such materials shall be disposed of at authorized locations.</p> <p>NO VARIANCE AVAILABLE</p>

PERMIT NO. 0567	SITE NO. #/ OR NAME H. Black Sites 1-10
---------------------------	---

MISSOURI LAND RECLAMATION COMMISSION

(11) Outstanding Resource Waters (10 CSR 20-7.031)

- (A) In-stream sand and gravel operations are prohibited from those waters listed as "Outstanding National Resource Waters."
- (B) In-stream sand and gravel operations are prohibited from those segments of "Outstanding State Resource Waters" that are owned or managed by a state or federal agency.

NO VARIANCE AVAILABLE

(11) Outstanding State Resource Waters (Non-Government Owned or Managed Land)

- (C) All other applications for in-stream sand and gravel operations on "Outstanding State Resource Waters" shall be reviewed individually to determine if specific conditions are necessary to preserve these stream reaches during mining activity. These individual reviews would assist the applicant in focusing on issues of specific concern. The individual review shall include a site visit by DNR staff prior to permit issuance, and annual site inspections by DNR staff during the life of the permit.

Is mining location in an Outstanding State Resource Water? ☐ YES ☒ NO

REQUEST FOR VARIANCE

In accordance with 10 CSR 40 -10.050(14)(B), I hereby apply for a variance from the Sand and Gravel Excavation Plan as it applies to the mine site location submitted with this application on grounds that literal compliance with the Sand and Gravel Excavation Plan is impracticable in my case.

The department's Land Reclamation Program may, in its discretion, grant the application for variance based on submitted information with or without a site visit. The person requesting the variance should therefore include all relevant information with the application. For each variance requested, state in detail the reasons why compliance with the Sand and Gravel Excavation Plan is impracticable.

------------------------	--------------------------------------	-------------	--

By my signature, I attest to the following:

1) All statements made in this Sand and Gravel Excavation Plan are correct, complete and true to the best of my knowledge.

2) I or the company I am authorized to represent intend(s) to protect the stream environment and remove sand and gravel in accordance with these requirements, and in accordance with The Land Reclamation Act Sections 444.760 through 444.790. RSMo (Suop 2001), and all rules, regulations, orders, decisions, and permits of the Missouri Land Reclamation Commission pertaining to my company's surface mining operation.

3) I have a valid agreement with all landowners which gives me the right to grant access to the Director of the Missouri Land Reclamation Commission and his authorized representatives, and I grant such access, and further where I have no right to grant such access, I have attached signed affidavits from the landowners granting such access.

Heritage Review for Sand/Gravel Mining Permit

DNR to MDC		Date: November 29, 2004
From	Bill Zeaman	DNR Land Reclamation Program
Phone/Email	573 751-4041	Bill.Zeaman@dnr.mo.gov
Message	<p>Sites identified below returned a level 2 or 3 response on the Missouri Species and Natural Communities of Conservation Concern Web Site, which directed us to contact you for further review. Please advise if there are in fact issues that might be affected by sand/gravel mining operations, and convey this query to the U.S. Fish and Wildlife Service if federally listed species are involved. If no response or request for extension is received within 30 days, the Land Reclamation Program will assume that general input MDC has already provided about sand and gravel mining permits is all that needs to be considered. Please note that no sites involve a request for variance.</p>	

Concerning the following proposed gravel/sand mining permit

Permittee	Parks Ready Mix Cement, Inc.	Permit #	0567	County	Dent
Location (URL, filename or description)					
Point marked at http://www.topozone.com/map.asp?lat=37.5567&lon=-91.3824&datum=NAD83&u=5 and continuing upstream to a point 2.5 miles from this one (R. Black / Meramec)					
Point marked at http://www.topozone.com/map.asp?lat=37.5788&lon=-91.392&datum=NAD83&u=5 and continuing upstream to a point 1.0 mile distant (Site 1 / Meramec)					
Point marked at http://www.topozone.com/map.asp?lat=37.6731&lon=-91.416&datum=NAD83&u=5 and continuing upstream to a point 0.8 mile distant (site 4, Meramec)					
Point marked at http://www.topozone.com/map.asp?lat=37.6714&lon=-91.3938&datum=NAD83&u=5 and continuing downstream to a point 0.5 mile distant (Site 7 / Watery Fork Creek - note named Hutchens on TOPO Map)					
Point marked at http://www.topozone.com/map.asp?lat=37.5346&lon=-91.3752&datum=NAD83&u=5 and continuing downstream to a point 1.9 mile distant (Site 8 / Meramec)					
Point marked at http://www.topozone.com/map.asp?lat=37.5587&lon=-91.3681&datum=NAD83&u=5 and continuing downstream to a point 1.6 mile distant (Site 9 / Meramec)					
Point marked at http://www.topozone.com/map.asp?lat=37.5642&lon=-91.3755&datum=NAD83&u=5 and continuing downstream to a point 2.5 mile distant (Site 10 / Meramec/Sections 8, 9 & 16)					

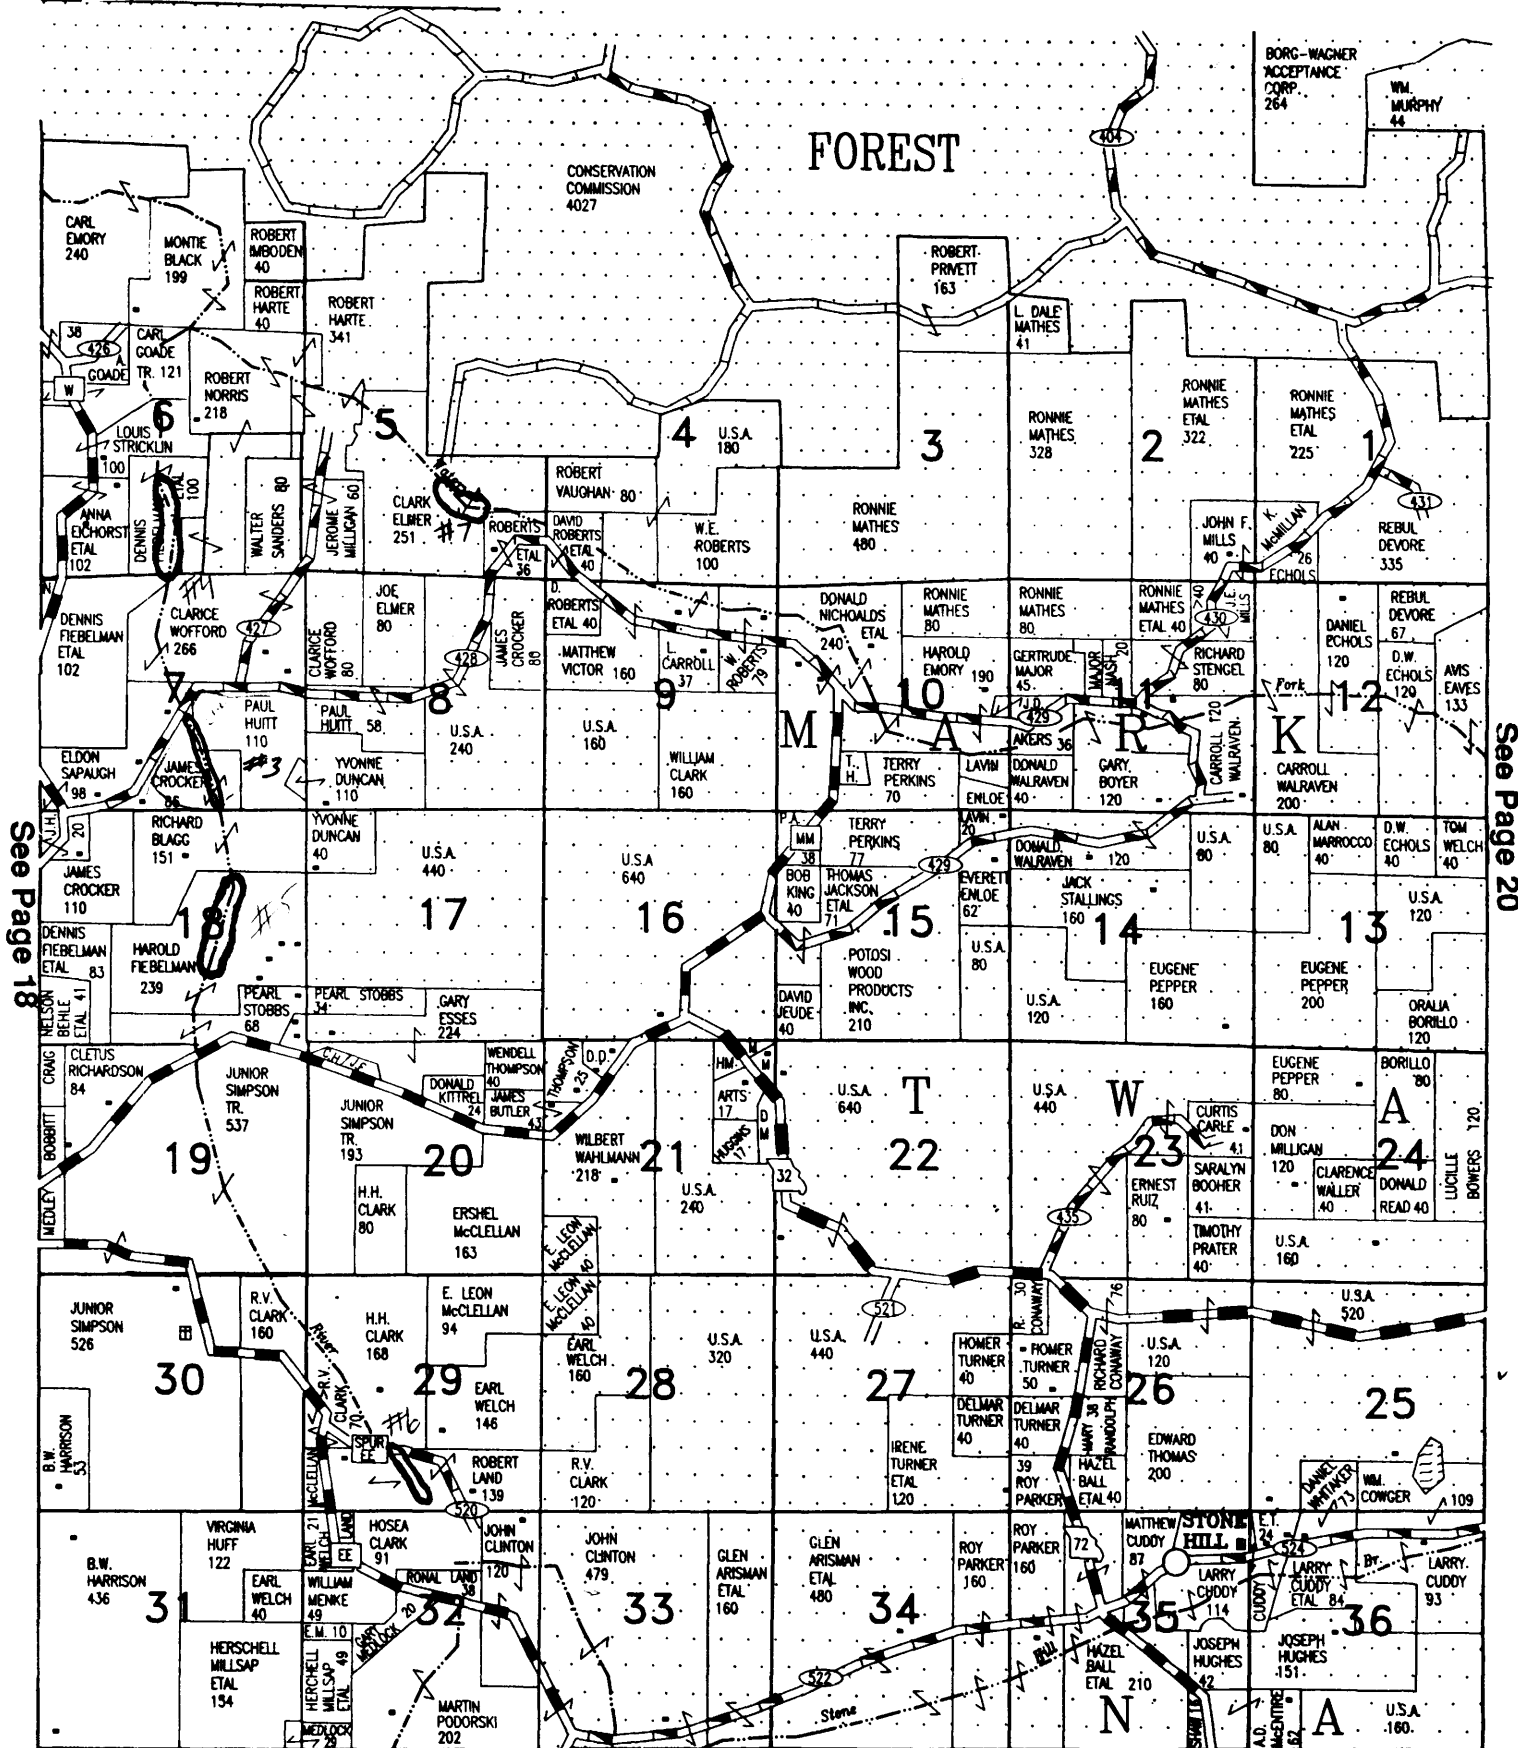

MDC to DNR

From	Shannon Cave, Heritage Reviews	Date:
Phone/Email	573-522-4115 ext. 3250	MDC Policy Coordination Unit
<p>I have reviewed this request and compared the project site(s) to the Missouri heritage records. There are no records of concern near enough to consider additional permit conditions. The level 3 reference was triggered by a segment of the Mark Twain National Forest near but not part of Site 7. As to state listed species and habitats of concern, we suggest no conditions to be included with any permit you in fact approve.</p>
